

HURRICANE SEASON IS HERE. LET'S MAKE SURE EVERYONE IS PREPARED.

The Housing and Community Development Department is working to strengthen resilience in our neighborhoods by partnering with organizations to develop and execute community outreach programs that will effectively reach historically underserved communities with essential hurricane preparedness and fair housing information. This program connects hurricane preparedness and fair housing information to lessen the impact from storms on communities at higher risk for experiencing housing discrimination.

Programming should take place at the neighborhood level and increase awareness about several topics:

- What to do to prepare for a hurricane
- What to do in the immediate aftermath of a disaster
- What resources are available to residents impacted by flooding
- Fair housing resources and information

With your help, we can better prepare our City's residents for hurricane season.
